## RELEASE NOTES – 06.06.2024

### Improvements

In the following sections, we will discuss the updates made to the POS 2.0 system, including the Digital Application and Borrower Portal. We will also cover any improvements made to third-party providers, if applicable, as well as any global updates. These updates are for both Loan Origination System (LOS) integrations. We will highlight the improvements made to the system's capabilities and user interface/experience. Each improvement will be categorized based on its unique Loan Origination System integration.

**Opt-In Category:** If checked, this feature/enhancement requires an update to your configuration. Please connect with your Account Manager to learn more.

### Global Improvements

| Issue Key | Type | Component | Summary | Opt-in |
|-----------|------|-----------|---------|--------|
