RELEASE NOTES – 2024.06.14

Incident & Bug Fixes:

- HESIQ-691 Property Report Legal and Vesting Failing to Populate on Initial Creation
  - Fixed an issue that prevented legal and vesting to map back to the MeridianLink LOS with completed property reports.
- HESIQ-693 Funded Loan Transactions Assigned to Incorrect File
  - Identified and fixed an issue that caused funded loan transactions to be assigned to the incorrect file in FirstClose One, excluding these transactions from billing invoices.
- HESIQ-700 File Completed email notifications are sent to Lender User after Vendor posts notes
  - Patched a bug that caused "File Completed" email notifications to be sent to users instead of the expected "Note Added" emails.

Settlement Services:

- HESIQ-688 Web User Password Security - Restricting Reuse of Prior Passwords
  - When users reset their password, FirstClose ONE will restrict the reuse of any of their prior 10 passwords.
- HESIQ-692 DocPrep - Ability to add a new "GenerateInitialDocs" product
  - Added a new doc prep product to support Digital Application and Borrower Portal.
- HESIQ-694 Ascendant Property Report - Additional Loan Details with Order Request Note
  - Updated the Cypress Ascendant integration to add borrower and property details to order request notes to streamline the property report fulfillment process.
