RELEASE NOTES – 2025.01.16

Incident & Bug Fixes:

- **HESIQ-1104 TCR Completed Order Email Sent Before Completion**
  - Resolved an issue where "Order Completed" emails were sent prematurely for Title Condition Report (TCR) orders. This issue only affected TCRs ordered as an individual product.
- **HESIQ-1102 Incorrect Property Photo Bug**
  - Fixed a bug that caused incorrect property photos to be fetched from Google Maps for some files in FirstClose One.
- **HESIQ-1101 User-Defined Vendor (UDV) Decline Comments Error Bug**
  - Patched a bug that prevented vendor users from declining appraisal order requests.
- **HESIQ-1078 User-Defined Vendor (UDV) Report Date Fails to Auto-Populate for Desktop Valuations**
  - Fixed an issue that prevented the report date from auto-populating when vendor users complete Desktop Valuation orders in FirstClose One.
- **HESIQ-1066 ProxyPics Property Condition Report (PCR) Expiration Bug**
  - Patched a bug that occasionally caused PCR order requests with the vendor ProxyPics to be sent with the wrong expiration time.
- **HESIQ-928 Property Insight Property Report Orders Failing**
  - Resolved an integration issue that caused new property report order requests with Property Insight to fail. This issue impacted new orders created between 01/09/2025 and 01/16/2025. Impacted orders were diverted to the next available Property Report vendor.
